

KICKING HUNGER

Help the homeless and hungry. Join Kicking Hunger today!

Kicking Hunger began in 2012 when Mariemont High School's Hans Hinebaugh returned from a mission trip where he saw extreme poverty for the first time. Hans came home determined to make a difference by feeding and caring for the homeless and hungry in his own city. He asked friends, family, and businesses to donate money for each point he scored as the kicker on the Mariemont football team. Since then, other high school kickers have joined the cause and have raised enough to feed and care for 14,000 people at City Gospel Mission!

We are looking for other high schools to join this growing movement!

How it works:

A participating high school kicker earns money to feed and care for those in need through online pledges from the community for every point he scores during the season.

FOR INTERESTED COACHES AND SCHOOL ADMINISTRATORS

The biggest thing that has made participating kickers so successful is the support of their school. If you are a coach or administrator, you can unlock doors in your school and community that your kicker may not be able to. You can be the catalyst for:

- Feeding and caring for the homeless and hungry.
- Building character of students and pride at your school.
- Strengthening the bond and values of your community.
